

Alignment of Local Label with Master Label

One of the top 3 global pharma companies

Alignment of Local Label with Master Label

One of the Top 3 global pharma companies

Business Need

- The US-based pharmaceutical company needed support in aligning local labels with master/reference labels

Our Solution

- A team of label and medical reviewers was deployed to identify the medically significant deviations and draw up a comparison table and also to suggest updates to local labels based on medical judgment and evaluation
- Developed more than 1000 comparison tables in 6 months

Outcome

The project was completed within the target timeline, with a good feedback from the client. The engagement is in its second phase, covering additional therapeutic areas and regions.
