

Global Supplier Consolidation for Top 10 Pharma Worldwide

PROBLEM STATEMENT

- Increasing requirement for compliance
- Different concepts for GO landscape
- Steering model described 3 years ago not sufficient
- Insufficient KPIs

Product recalls and critical errors

Lack of transparency & complex GO landscape

Poor governance of GOs

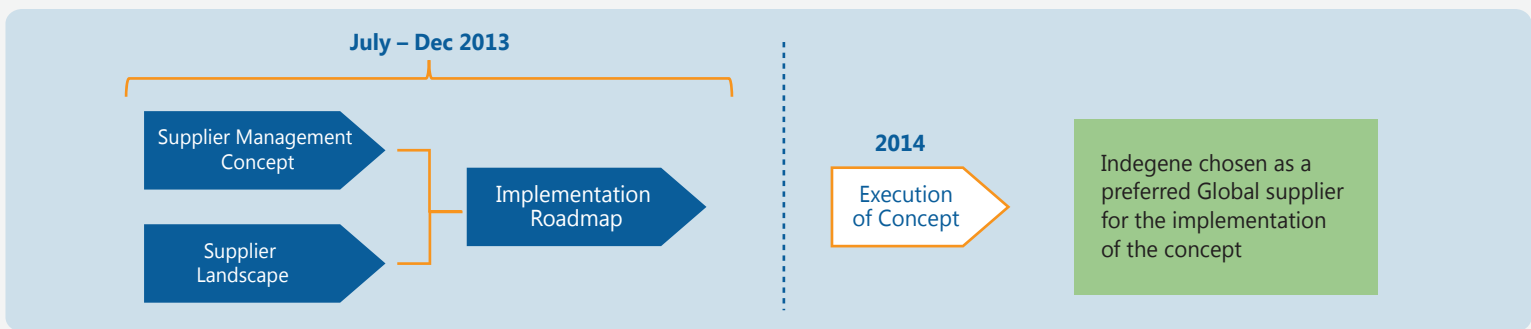

Inadequate performance management

INTERVENTION

End-to-end execution of GO consolidation project

Standardized Model for Product Compliance
Minimize product recalls due to packaging artwork errors
Streamline Supplier Landscape and Standardize Supplier concept
Reduce complexity of GO concepts and landscape by consolidation and increased transparency
Establish Robust Supplier Management Concept
Best practices for GO selection, qualification, evaluation, development and termination
